

FD694

Premium Drive-Position Radial

Long and Regional Haul

Long and Regional Haul

LONGEVITY LIKE NEVER BEFORE

Introducing the Firestone FD694, a new drive tire for long haul and regional applications that's designed with Firestone's deepest on-highway tread pattern for excellent removal mileage. Built to work harder for longer, the Firestone FD694 combines a proven tread pattern with a premium casing, allowing the FD694 to persevere through wet and winter conditions and deliver excellent longevity.

Features & Benefits

- Exceptional longevity across a robust range of applications
- Proven tread pattern efficiently evacuates water to promote aggressive traction in wet conditions
- Equipped with a Bridgestone engineered casing designed to maximize the value and life of your tire purchase through retreading

Deep and High Rigidity Tread Pattern

Offers long, even wear by controlling movement of the ribs and blocks during rotation

Stabilizing Solid Shoulder Design

Distributes weight and torque to fight irregular wear and block squirm for even wear

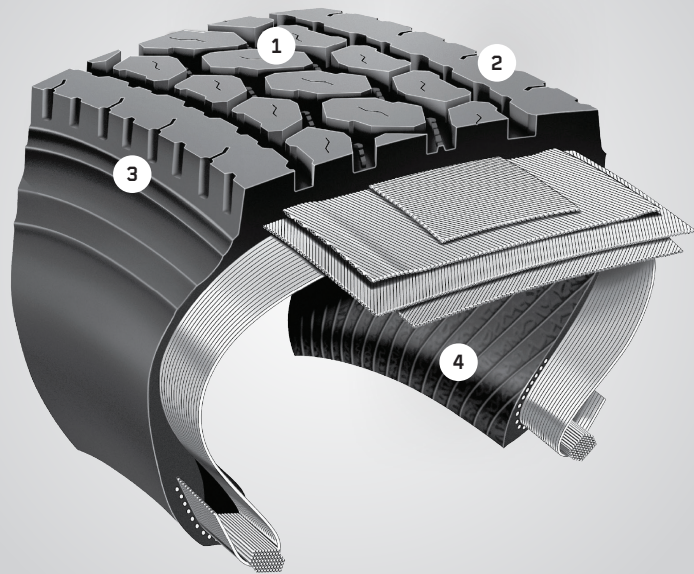

Wide Shoulder and Center Grooves

Efficiently evacuate water to promote traction for a solid grip on wet roads

Casing-Saving Stone Rejector Platforms

Help prevent trapped stones from pushing deeper into tread grooves and piercing belt layer, damaging and exposing belts to rust

Firestone

Firestone Casings & Bandag Retreads

Pairing your Firestone casing with a Bandag retread extends the life of your tires and keeps your money where it belongs—with you. With specialized tread patterns that stand up to your operation’s demands plus cutting-edge compounds that resist wear and tear, Bandag retreads perform like new tires at a fraction of the cost. Prove It to Yourself

Connect product, data, technology and service in order to simplify your tire management, creating enhanced business results while also contributing to a more efficient future of mobility. Make your investment go further with Bridgestone’s IntelliTire™, which provides real time data on tire pressure monitoring, temperature, speed and more to detect and avoid tire issues before they happen, reducing downtime and tire costs. Find a Dealer

Firestone offers customized programs, services and technology and is partnered with the largest dealer network to drive your business forward. Scan the QR code to locate a dealer near you.

FD694 Features & Benefits

1. Proven Tread Pattern

The 30/32nd contributes to exceptional removal mileage and ensured traction performance across a robust range of applications

2. Wear-Resistant Tread Compound

Improved tread compound helps resist tread squirm and heel/toe wear to deliver exceptional mileage

3. Cap/Base Compounding

Long-wearing cap compound is engineered for excellent mileage while the base compound shields the casing from damaging heat, enhancing retreadability

4. Dependable Casing

Optimized construction to fight tread squirm and irregular wear with top belt adding protection against penetrating road hazards
